👤 SUMMARY

Full-stack MERN developer with hands-on experience building responsive web applications and scalable backend systems. Skilled in React, Node.js, and REST API development, with a focus on clean architecture and real-world problem solving.

🧰 WORK EXPERIENCE

MERN Stack Developer

04/2026 – Present

4HANDS PVT LTD.

Kochi, India

Working as a full-stack MERN developer, building responsive front-end interfaces and developing backend APIs with Node.js, Express, and MongoDB, with a focus on clean architecture and maintainable code.

Intern

07/2025 – 03/2026

SOFTRONIICS

CALICUT

Learned and applied the MERN stack in a structured environment, building full-stack applications with React, Node.js, Express, and MongoDB while focusing on clean UI and practical backend development.

- Developed responsive web applications using MERN.
- Integrated REST APIs and handled asynchronous data using Axios and Fetch, improving maintainability.
- Collaborated with design teams to translate Figma/UI designs to functional components

Full-Stack & Mobile App Development Training

2024 – 2025

Regional Technologies

Undertook training in Python and contributed to a team-based mobile application project using Dart, Python, and Java. Gained experience in application development, problem solving, and collaborative workflows.

📁 PROJECTS

Movie Streaming Platform

03/2026 – 04/2026

Team Lead

- Leading the development of a full-stack movie streaming platform.
- Managed team coordination, task allocation, and project timelines.
- Contributed to core feature development and system architecture.
- Collaborated on UI/UX design to enhance user experience.
- Built using MongoDB, Express.js, React.js, Node.js, and Tailwind CSS.

Fragranzia

02/2026 – 03/2026

E-commerce project

- Developed a full-stack e-commerce platform with user authentication and product management.
- Implemented secure JWT-based login and REST APIs
- Designed responsive UI and optimized performance for smooth user experience.
- Managed state and integrated frontend with backend services.

Student Dashboard

08/2025 – 08/2025

Hackathon Team Lead

- Led a team to build an AI-powered *Student Dashboard* during a hackathon.

- Oversaw UI/UX design and guided overall development strategy.
- Delegated tasks, managed collaboration, and ensured successful project execution.

 SKILLS

Front-end Development

React.js, Redux, Responsive Design, UI/UX Principles.

Back-end Development

Node.js, Express.js, MongoDB, REST APIs, JWT Authentication.

Tools

Git, GitHub, VS Code, Postman.

Others

API Integration, Debugging, Performance Optimization.

Programming Languages

JavaScript (ES6+) – Primary Focus, Python, Java, C, C++, Dart

Database

MongoDB

Concepts

API Security, Async/Await, State Management.

Deployment

Vercel, Render, MongoDB Atlas.

Web Technologies

HTML5, CSS3, Tailwind CSS

 EDUCATION

BSc Computer Science

10/2021 – 05/2024

BSc Computer Science – Pondicherry University

Computer Science

07/2019 – 03/2021

Higher Secondary Education - IKKGHSS Pandakkal

 AWARDS

Hackathon – 2nd Place Winner

05/08/2025

SOFTRONIICS

- Secured 2nd place in a team-based hackathon for developing an AI-powered *Student Dashboard*.
- Led the team, managed task distribution, and contributed to UI/UX design and development.

 CERTIFICATES

- Hackathon Participation Certificate

 LANGUAGES

English, Hindi, Malayalam, Arabic
